elizabeth.katz@dps.ny.gov

Information about Demand Response Programs from other sources

- NYISO: If you are interested in learning about the New York Independent System Operator (NYISO) programs designed to assist large commercial and industrial customers reduce energy use, improve energy efficiency and cut costs, you can go to their website at www.nyiso.com.
- NYSERDA: For more information on NYSERDA's demand response and energy-efficiency programs, call (518) 862-1090 or access NYSERDA's website at www.nyserda.ny.gov.
- The New York Power Authority (NYPA) also administers energy-efficiency programs that provide assistance to local, county and state government facilities, public schools and state university campuses. For more information on high-efficiency lighting and other energy saving initiatives for institutional customers, contact NYPA at (914) 681-6200 or www.nypa.gov.
