

**ACCOUNT RECEIVABLES ADVISEMENT BUSINESS PROCESSES
UTILITY RATE READY CONSOLIDATED BILLING MODEL**

Since no utilities currently support this transaction, further development has been suspended as of Version 2.2.

This document describes the detailed business processes associated with non-billing party communication of account receivable information under the Utility Rate Ready Pay-As-You-Get-Paid Consolidated Billing model. The scope of this document addresses processes associated with the communication of account receivable information via a 568 Account Receivables AdviseMENT transaction sent by the non-billing party to the billing party and the disposition of that account receivable information. This business process does not apply to the Utility Rate Ready Purchase of Receivables (POR) Consolidated Billing model.

In developing these business processes, the New York EDI Collaborative reviewed the following documents:

- June 30, 1999 Report of the New York EDI Collaborative
- Case 03-M-0117, In the Matter of the Implementation of Chapter 686 of the Laws of 2002, etc., Order on Petitions for Rehearing and Clarification, issued and effective December 5, 2003.
- Case 98-M-1343, In the Matter of Retail Access Business Practices, Order on Petitions for Rehearing and Clarification, issued and effective July 15, 2004.
- Case 98-M-1343, In the Matter of Retail Access Business Rules, Errata Notice, issued August 2, 2004.
- Case 98-M-1343 and Case 99-M-0631 and Case 03-M-0117, Order on Petitions for Rehearing and Clarification, issued and effective June 22, 2005.
- NY EDI TS810 Invoice for Utility Rate Ready Billing, version 1.1, published February 23, 2004.
- Consolidated Billing Business Processes – Utility Rate Ready, published June 21, 2002.
- NY EDI TS814 Enrollment Request and Response Standard v. 2.0, issued May 17, 2006
- Enrollment Business Processes Document issued July 23, 2001.
- NY EDI TS814 Change (Account Maintenance), published May 17, 2006.
- Account Assignment Business Processes For All Consolidated Billing Models ordered July 31, 2002.
- Remittance Advice Business Processes for Utility Consolidated Billing Models v2.0 issued May 17, 2006.
- Notification Advice for Consolidated Billing Business Processes ordered November 7, 2002.
- Order Taking Actions to Improve the Residential and Small Nonresidential Retail Access Markets, issued and effective February 25, 2014 in Case 12-M-0476 et.al.

**ACCOUNT RECEIVABLES ADVISEMENT BUSINESS PROCESSES
UTILITY RATE READY CONSOLIDATED BILLING MODEL**

NOTES:

- The source of various Process Rules listed in this document is indicated by the following annotations which precede each rule:
 - [UBP] = NY Uniform Business Practices
 - [CWG] = Collaborative Work Group or Case 12-M-0476 EDI Working Groups
 - [CWG][UBP (insert paragraph cite)] = Collaborative Work Group clarification, interpretation, comment or recommended modification of the Practices to accommodate Electronic Data Interchange. The following abbreviations are used for UBP Section references:

– DEF	Section 1 Definitions
– ELIG	Section 2 Eligibility Requirements
– CRED	Section 3 Creditworthiness
– CI	Section 4 Customer Information
– CSP	Section 5 Changes in Service Providers
– CINQ	Section 6 Customer Inquiries
– UI	Section 7 Utility Invoices
– DISP	Section 8 Disputes Involving Distribution Utilities, ESCOs or Direct Customers
– B&PP	Section 9 Billing and Payment Processing
- References to the text of the Uniform Business Practices (UBPs) displayed in the Process Rules sections in this document are those UBPs that are relevant to the scope of the business processes being described in this document and incorporated, by reference, into this document. Those UBPs that the Collaborative believes require elaboration, clarification, interpretation in light of other EDI standards or modification to accommodate EDI data exchange processes will be displayed in the Process Rules section AND/OR will be highlighted in the Comments/Recommendations/Issues section.
- Any item displayed under a Process component (i.e. rules, etc.) is also applicable for its sub-processes, unless otherwise noted.
- For purposes of validating EDI transactions, the customer's utility account number (with check digit, if included) must be included on every transaction.
- A distribution utility and ESCO shall demonstrate the technical capability to exchange information electronically for the billing and payment processing options [UBP B&PP B.7.].

**ACCOUNT RECEIVABLES ADVISEMENT BUSINESS PROCESSES
UTILITY RATE READY CONSOLIDATED BILLING MODEL**

- The 568 Account Receivables AdviseMENT may only be sent when an account is already established on Utility Rate Ready Pay-As-You-Get-Paid Consolidated Billing; it may not be sent when Utility Rate Ready Consolidated Billing status is pending for an account.
- A separate 568 Account Receivables AdviseMENT transaction must be sent for each account.
- Each 568 Account Receivables AdviseMENT transaction may contain multiple adjustments for a single commodity.
- Where the billing party prepares a consolidated bill consisting of electric and gas charges, adjustments to receivables must be applied to electric and gas charges separately and should be communicated in the 568 accordingly.
- An 824 Application Advice must be sent within 1 business day to reject a 568 Payment AdviseMENT transaction.
- Customer payments received by the ESCO and applied to their account receivables balance for the customer must be communicated to the Utility via a 568 Accounts Receivables AdviseMENT transaction; an 820 Remittance Advice transaction should never be used by the ESCO in the Utility Rate Ready model to communicate the posting of payments or credits on a customer's account.
- A customer payment must be posted to the receiver's system(s) on the same date it is received.
- A separate business process document describes the use of a 568-type transaction by the billing party to communicate the receipt of customer payments to the non-billing party when the POR With Recourse model is in effect. That transaction is known as the 568 Payment AdviseMENT transaction.
- Information on customer usage, billing, and credit is confidential. A distribution utility or MDSP may release such information, upon a customer's authorization, in accordance with the Uniform Business Practices [UBP CI.]. The same level of accountability for data confidentiality will apply to any third party data service providers engaged by an ESCO/Marketer or Utility. Parties utilizing third party data service providers must ensure that such providers adhere to this confidentiality policy, for example, by incorporating express terms regarding data confidentiality in a Billing Service Agreement and/or Trading Partner Agreement. Delivery service billing data for customers with negotiated delivery contracts may not be disclosed without the utility's consent, except as otherwise required by appropriate regulatory and other legal authorities.

**ACCOUNT RECEIVABLES ADVISEMENT BUSINESS PROCESSES
UTILITY RATE READY CONSOLIDATED BILLING MODEL**

- Although transactions may be sent at any time, they will be processed during normal business days and hours. Business days are Monday through Friday except for national holidays and days for which business cannot be performed due to force majeure events [see UBP definition for 'Business Day' and paragraph B&PP D.1.j.]. Utilities are expected to process 568 transactions within four business days. For example, if the Utility receives a 568 transaction at its Web server at 3:00 a.m. on Day 1, the Utility must process the 568 transaction by close of business on Day 4. If the 568 transaction is received at 8:00 p.m. on Day 1, the Utility must process the 568 transaction by close of business on Day 5.

PROCESS NAME:	<i>NON BILLING PARTY PROCESSES 568 ACCOUNT RECEIVABLES ADVISEMENT TO NOTIFY BILLING PARTY OF AMOUNTS ASSOCIATED WITH TERMINATION NOTICES OR DEFERRED PAYMENT AGREEMENTS ORIGINATING WITH THE NON-BILLING PARTY</i>
	<ul style="list-style-type: none"> • Upon receipt of notification from the non-billing party, the billing party must adjust the customer's receivables balance with the non-billing party to reflect the payment amount and determine the allocation of the payment between the billing and non-billing party in accordance with pro-ration procedures established in B&PP J.4.a. The receivables balances of the parties may subsequently be adjusted to reflect the pro-rata share of the payment applicable to each party. <p>[HEFPA UBPs B&PP J. 4.a., B&PP J.4.a., B&PP J.4.c., B&PP J.6.a., B&PP J.6.b., B&PP J.6.c., B&PP J.6.d.]</p> <p>[CWG] When a deferred payment agreement originates with the ESCO, the 568 A/R Advise ment transaction communicating the down payment and/or current installment amount must be received at least 4 business days (or an alternative time period agreed upon by the parties) prior to issuance of the customer's consolidated bill. When the transaction is received less than 4 business days (or an alternative time period agreed upon by the parties) prior to issuance of the bill, the Utility will accept the transaction, update the account balance, and present the adjustment on the customer's next consolidated bill. Parties that agree on a time period that is less than 4 business days must document such arrangements in the BSA.</p>
