

E² Working Group Subcommittee Updates

Data Tracking Subcommittee:

Subcommittee formed, first meeting to be scheduled.

ETIP Guidance Subcommittee:

The subcommittee participated in several conference calls throughout the month to review and discuss progressive drafts of the ETIP Guidance document. Input regarding the details that should be included in the ETIP Guidance to the format and layout of the document was provided from members of the subcommittee. Staff maintained control of the document throughout the process. A general consensus was reached by the conclusion of the subcommittee meeting on April 24. The current draft will be circulated prior to the April 29 E² Working Group meeting, and Staff will submit the final draft of the ETIP Guidance to the Secretary to the Commission by May 1, 2015.

Self Direct Guidance Subcommittee

The Self-Direct Program Subcommittee met with Anna Chittum of ACEEE, who provided an overview of Self-Direct programs and discussed design elements that could be considered in developing the Self-Direct Program Guidelines, to be filed by August 3, 2015.

EEPS 2 Wind Down Subcommittee:

Subcommittee formed, first meeting to be scheduled.

Post-2015 Technical Resource Manual Transition Subcommittee:

The subgroup has completed several work sessions and has begun developing and documenting its vision for the TRM going forward. The group has developed a list of key assumptions, tasks and technical/process considerations necessary to establish short and long term plans to not only transition the TRM/supporting processes from DPS to JU but also to maintain the TRM to support programs and program changes in the future. Consideration of current processes/materials/supporting documentation has been used to inform the rapidly approaching transition activity as well as the on-going requirements necessary for a successful undertaking.

At this juncture, the subgroup is sorting through the list to ensure that all needs/considerations/concerns are captured, working to develop potential external support/service needs plus timing of such and has begun framing the actual plan document with allowance for internal party review/comment/revision and to comfortably meet the filing date of 6/1/2015.

Small Commercial EM&V Review Subcommittee:

Final report is complete, and was sent to the E² Working Group for review on April 24, 2015. The Subcommittee will present conclusions and recommendations to the E² Working Group during the E² Working Group meeting on April 29, 2015.

Evaluation Assessment Subcommittee:

Work scope completed, subcommittee was fold on April 1, 2015.

Guidance Document Subcommittee:

Work scope completed, subcommittee was folded April 1, 2015.

Joint & Statewide Studies Subcommittee:

A kick off meeting for the Residential Appliance Metering Study was held on April 14, 2015 at the New York State Independent System Operator (NYISO) offices.

Technical Manual Subcommittee:

The TMSC held two meetings during April and continued its work on various measures that had previously been identified by the TMSC as requiring updates, edits and corrections according to the schedule sent out. The measures included recycled refrigerators, low-flow showerheads, residential HVAC measures included in the statewide Residential Gas High Efficiency Heating Equipment, and door heater controls.

Subcommittee	Chair(s)	Date Formed	Date Folded
Data Tracking	Peggie Neville	3/20/2015	
ETIP Guidance	Kevin Manz	3/20/2015	
Self-Direct Guidance	Katie Mammen	3/20/2015
