ALBANY — The New York State Public Service Commission (Commission) today announced it was seeking comment on a petition jointly filed on January 13, 2017, by Consolidated Communications Holdings, Inc. (CCH) and FairPoint Communications, Inc. (FCI) seeking Commission approval of the proposed transfer of certain telephone, broadband and cable assets from FCI to CCH.

Under the proposed transaction, CCH would acquire FCI and its subsidiaries operating in New York, including Berkshire Telephone Corporation, Chautauqua and Erie Telephone Corporation, Taconic Telephone Corporation, and FairPoint Business Services. CCH, which currently does not provide telecommunications service in New York State, plans to retain all of FCI’s existing assets in the State.

If the transaction is approved, CCH would own and/or manage certain broadband, voice and cable video systems service communities in Chautauqua, Columbia, Dutchess and Rensselaer counties. According to the petition, the proposed transaction would involve only a change of ownership at the holding company level and customers will not experience any immediate changes in services, rates, or terms and conditions of service. The petition asserts New York consumers will benefit from the merger because:

- The combined company will be able to offer advances products and services and expanded customer choice for telecommunications and broadband services;
- The transfer is expected to improve broadband coverage and speed. CCH has made it a priority to upgrade the broadband capability of the FCI subsidiary networks;
- CCH has a record of high quality customer service; and
- Over time, New York consumers may expect to see new services not currently offered in all markets, including video, home automation and security services.
