Siting Board to Consider Number Three Wind's Application to Build and Operate 105.8 MW Wind Farm in the Towns of Lowville and Harrisburg, Lewis County

ALBANY — The New York State Board on Electric Generation Siting and the Environment (Siting Board) will meet on Tuesday, November 12, 2019, at 10:00 a.m. to consider Number Three Wind LLC's (Number Three Wind) application for a Certificate of Environmental Compatibility and Public Need to build and operate a proposed 105.8-megawatt (MW) wind facility in the Towns of Lowville and Harrisburg, Lewis County.

Number Three Wind LLC is a subsidiary of Invenergy, LLC (Invenergy). Specifically, Number Three Wind has applied to build and operate 31 wind turbines with a generating capacity of 105.8-megawatts, access roads, an electrical collection system, meteorological towers, an operation and maintenance building, and electrical interconnection facilities. The electrical interconnection facilities would include a project substation, a 115-kilovolt switchyard, and an overhead 115-kilovolt interconnection line approximately 4 miles in length that connects the substation to the switchyard and then to National Grid's Lowville-Bremen transmission line.

Members of the Siting Board will meet in the Public Service Commission's Board Room, 19th floor, 3 Empire State Plaza, Albany, New York, at 10:00 a.m., with video-conference connections to the Public Service Commission's Board Room, 4th floor, 90 Church St., New York, New York.
