Industry has requested advanced notice to generator-operators in the event the utility requires disconnection for non-emergency purposes.

The Joint Utilities propose language be added to the SIR, noted below in green. Current language is in blue.

Section II. Interconnection Requirements

B. Operating Requirements

The generator-owner shall provide a 24-hour telephone and email/electronic contact. This contact will be used by the utility to arrange access for repairs, inspection, or emergencies. The utility will make such arrangements (except for emergencies) during normal business hours. *For all required disconnections of the generator-owner’s system to facilitate non-emergency utility work on the electric power system, the utility will provide two (2) Business Days advance notice to the generator-owner with an indication of anticipated duration.*
