Subject Case 08-E-0077 - Entergy Petition - Schedule for further comments

[This document IS flagged as a record](#)

To All Active Parties:

This is to advise you that there will not be a conference call tomorrow. None of the comments we received today raises any issue that would call into question Petitioners' assertion that they have fulfilled their obligations to provide reasonable responses to the additional discovery authorized in our July 23, 2008, ruling. **Accordingly, the 24 days allowed for submission of further comments will run from tomorrow, making the due date Monday, September 15, 2008.** Responsive comments will be due on September 29, 2008.

Tomorrow, we will provide more detail on the reasons underlying our decision with respect to the comments received today. The purpose of this e-mail was just to give everyone a little more advance notice as to the schedule, and to make it clear that no one need be waiting for a phone call from us.

David Prestemon
Administrative Law Judge
