Albany, NY – 5/13/02 – The New York State Board on Electric Generation Siting and the Environment has rescheduled a meeting originally set for Thursday, May 16, 2002, at 11:00 a.m. in the 19th floor Board Room at 3 Empire State Plaza, Albany, New York. **The meeting is now scheduled for Wednesday, May 22, at 11:30 a.m. in the Department of Public Service Board Room, 8th Floor, One Penn Plaza, New York City.**

The purpose of the meeting is to consider an application filed by the New York Power Authority (NYPA) for a Certificate of Environmental Compatibility and Public Need (Certificate) to construct a 500-megawatt (MW) combined-cycle electric generating facility adjacent to NYPA's existing Charles Poletti Generating Station in the Astoria Section of Queens County, New York City. The Siting Board in Case 99-F-1627 (Poletti Siting Board) may grant or deny NYPA's application or grant a Certificate subject to conditions.

The meeting of the Poletti Siting Board is open to the public. However, since participants in the case pending before the Poletti Siting Board already have been provided opportunities to comment on and respond to the application, participants will not address the Siting Board at the meeting. **Pursuant to procedures established by the building management, anyone planning to observe the meeting in the New York City Board Room must notify Jan Goorsky at 212-290-4361 no later than close-of-business on Monday, May 20, 2002, and must be prepared to show valid photo identification upon arrival at One**

Under Article X of the New York State Public Service Law, the State Siting Board for this application consists of New York State Public Service Commissioner Neal N. Galvin, designee of the Chairman of the Siting Board, and the Commissioners or their designees from the New York State Departments of Environmental Conservation, Health, Economic Development, and the New York State Energy Research and Development Authority, and two additional members – one from the judicial district and the other from the county where the facility is proposed to be located.

On August 18, 2000, NYPA filed an application with the Siting Board to obtain a Certificate under Article X to construct the generating facility. According to the NYPA's application, the proposed project site is a four-acre, undeveloped parcel of land located within NYPA's 47 acres of property in Queens. NYPA owns and operates the existing 825 MW Charles Poletti generating station on the 47 acres, which are part of a 291-acre parcel formerly owned by Consolidated Edison Company of New York, Inc. (Consolidated Edison).
